

ACTIVE 2-20-2

Active™ 2-20-2 is a dry powder organic phosphorus fertilizer that delivers micronized organic phosphorus with additional potassium and nitrogen that is provided by soy protein.

PRODUCT FEATURES

- Category: Macronutrients
- Derived From: Soy Protein Hydrolysate, Rock Phosphate, and Potassium Sulfate
- Active™ 2-20-2 offers the grower an opportunity to apply dry powder organic phosphorus fertilizer while delivering macronutrients in small quantities

BENEFITS

- Highly refined dry powder organic phosphorus fertilizer for improved uptake
- Natural chelation affects from soy protein
- Consistent, dry powder formula
- Additional N & K for increased nutritional value

FOR BEST RESULTS

- Agitation is required during mixing and prior to application
- Use 15 gallon minimum water volume per acre
- Avoid applications with metal-based fungicides
- Use an appropriate spreader and sticker to enhance penetration

TECHNICAL SPECS	
Certifications	CDFA, WSDA
Guaranteed Analysis	Total Nitrogen (N): 2% Total P (as P2O5): 20% Total K (as K2O): 2%
Stability	Stable under normal storage conditions
pH	6.5-6.9
EC	-
Water Solubility	Soluble in Water
Appearance	Tan Dry Granules, Slight Musky Odor
Toxicity	Not classified as hazardous based on IATA, IMDG, and DOT. FIRE AND EXPLOSION: Not considered flammable or combustible, but this product will burn if involved in a fire.
Available Variants	44 lbs
