

ARI Agro Pest is an insecticide for use in all crops designed to control most sucking insects.

PRODUCT FEATURES

- Category: Foliar Insecticide
- Agro Pest® is a new contact insecticide for use in all crops, made from thyme oil* and organic rosemary oil

BENEFITS OF THYME & ROSEMARY OIL

- Can be used on all food and feed crops
- Can be used as a conventional insecticide to repel and kill most small sucking insects such as aphids, mites, white flies, thrips, psyllids, and Drosophila Suzuki
- Thyme Oil (13%) is an excellent endocrine disruptor, suffocant and repellent
- Rosemary Oil (10%) destroys eggs and insect tracheas and interferes with neuron transmitters

**The combination of these two oils makes an effective defence against every stage of an insect's life*

- Will not harm beneficials or pollinators

FOR BEST RESULTS

- Avoid applying Agro Pest during active pollination
- Perform a compatibility jar test first
- Shake before use
- Apply in the morning or late evening
- Do not apply when heavy rain is expected

TECHNICAL SPECS
