

BlueGold® Injectable 85% Carbon

PRODUCT FEATURES

- Derived from Biochar
- BlueGold® Carbon is an extremely bioactive form of biochar
- It is a dry input mine mineral without additives or chemical processing.

BENEFITS OF BIOCHAR

- Increase the moisture holding capacity of the soil
- Increase the Microbial activity in the soil
- Provide a stable source of organic matter in the soil

FOR BEST RESULTS

- Apply similar to other soil amendments at a rate as indicated by soil analysis
- For irrigation injection, filter to 100 mesh and apply via sprinkler
- For Foliar applications, use low rates and tank mix with surfactant
- For weekly soil or water buffering, agitate and apply with irrigation water

TECHNICAL SPECS	
Certifications	OMRI
Guaranteed Analysis	Carbon 85%
Form	Solid
Appearance	Black Powder
Weight	22.6 kg
Available Variants	50 lbs

SUGGESTED APPLICATION RATES

Label Rates	MIN	MID	MAX
<i>Foliar for Acre +</i>	.5 lb/ac	1 lb/ac	2 lb/ac
<i>Soil for Acre +</i>	1 lb/ac	2 lb/ac	5 lb/ac
