

EXPLORER 10-0-0

Ferticell™ Explorer™ Liquid 10-0-0 is an organic liquid nitrogen fertilizer that is the direct product of grower & distributor request.

PRODUCT FEATURES

- Category: Nitrogen Fertilizers
- Derived From: Soy Protein Hydrolysate

BENEFITS

- Reliable release curve in all environmental conditions
- Contains no fossil fuel-based Nitrogen sources
- No risk for tip burns normally associated with nitrates or volatilization of ammonia
- No burn potential with minimum watering requirements
- A 100% water soluble Nitrogen produced by enzyme hydrolysis containing compounds of protein peptides, and amino acids
- Optimum use or choice in over fertilized soils, thus lowering toxicity stresses and will directly benefit rooting energy

FOR BEST RESULTS

- Avoid storage in temperatures above 105 °F., or acid contamination
- Compatible with all conventional Nitrogen sources and most fertilizers
- Suitable for soil or foliar applications.
- Will stay in solution in the mixing tank without agitation.
- See recommended application rates below
