

Fertilgold® Co ensures efficient and effective uptake of cobalt.

PRODUCT FEATURES

- Derived From: Cobalt Sulfate
- Micronutrient

BENEFITS OF COBALT

- Cobalt is a micronutrient essential for nodulation of legumes, microbial function, and recovery from plant stress
- Cobalt is the central element of the B-12 vitamin
- Buffers excessive ethylene concentrations in plant tissue, preventing the production of abscisic acid and premature fruit drop
- May assist in overcoming stress caused by over-application of herbicides and pesticides

FOR BEST RESULTS

- Verify need by plant or soil analysis
- Shake well before use
- Perform jar test for compatibility
- Apply foliar sprays with uniform coverage
- Avoid foliar applications in concentrations greater than 5%
- Apply in the early morning or in the evening
- Avoid applying during the hottest time of the day
