

# SEA PHOS

*Pacific Gro Sea Phos 1.7-7-0 boosts root development and builds humus & healthy soil.*

## PRODUCT FEATURES

- Derived from fish protein hydrolysate stabilized with phosphoric acid, and seafood protein hydrolysate
- High Phosphorus Formula to promote early season root growth and flowering
- Screened to 150 mesh (105 micron) for trouble-free spray and drip use.

## BENEFITS OF FISH HYDROLYSATE & PHOS

- Healthy phosphorus levels help crops to establish roots for annual plantings, and to stimulate reproductive energy for flowering and fruit set
- Provides a broad range of nutrients from the ocean, that can be used to help build humus and soil organic matter—Includes fish oil, a food source for beneficial fungi
- Also includes amino acid Nitrogen enzymatically digested from seafood proteins

TECHNICAL SPECS	
<b>Certifications</b>	OMRI, CDFA
<b>Guaranteed Analysis</b>	Total Nitrogen (N): 1.7% 1.4% Water Soluble Nitrogen 0.3% Water Insoluble Nitrogen Available Phosphate (P2O5): 7.0%
<b>pH</b>	3.5
<b>EC</b>	2.6
<b>Form</b>	Liquid
<b>Density</b>	9.0 lbs/gal at 68°F
<b>Available Variants</b>	2.5 gal, 30 gal, 265 gal, bulk tanker

## FOR BEST RESULTS

- Apply in the fall, with active microbiology to establish colony formation in soils
- Keep containers tightly closed. Store at ambient temperatures, not in direct sunlight
- Do not store after diluting with water. Use up all products that are mixed for use (above pH 4.5 the product will get bio-active, foam and expand)
- Agitate well before use

SUGGESTED APPLICATION RATES			
Label Rates	MIN	MID	MAX
<b>Foliar for Acre +</b>	0.5 gal/ac	1 gal/ac	2 gal/ac
<b>Soil for Acre +</b>	2 gal/ac	5 gal/ac	10 gal/ac
