

Fertilgold® NK provides excellent foliar and soil nutrition and can be foliar-applied according to label directions without risk of phytotoxicity.

PRODUCT FEATURES

- Derived From: Potassium Sulfate and Soy Protein Hydrolysate

BENEFITS OF NK

- Resists nitrogen leaching and volatilization.
- Moves with irrigation water to aid in proper placement
- Provides crops with a phosphorus-free nutrient boost, which is especially useful when the crop is at a later growth stage or when additional phosphorus is otherwise not needed
- The potassium promotes internal cellular strength for fruit development and maturity while helping to regulate the movement of water and nutrients within the plant. The nitrogen enhances cellular respiration

FOR BEST RESULTS

- Verify need by plant or soil analysis
- Shake well before use
- Perform jar test for compatibility
- Apply foliar sprays with uniform coverage
- Avoid foliar applications in concentrations greater than 5%
- Apply in the early morning or in the evening
- Avoid applying during the hottest time of the day
