

# ARAGONITE

**BlueGold® Calcium Carbonate (Injectable and Raw Aragonite) is a big gun in your arsenal against the Calcium war that rages in every field.**

### PRODUCT FEATURES

- This material is designed for all any injectable (drip/fertigation) irrigation systems and can also be applied via foliar
- It is 1-3 microns
- Raw-dry input Calcium

### BENEFITS OF ARAGONITE

- Aragonite provides a naturally occurring source of available calcium
- Aragonite provides a key strategy in limiting saline toxicity in diverse crops
- Raw soil applications are the only way to address the soil long-term in terms of turning it around towards sustainability

### FOR BEST RESULTS

- Apply similar to carbonate lime at a rate as indicated by soil analysis
- For irrigation injection, filter to 100 mesh and apply via sprinkler
- For foliar applications use low rates and tank mix with surfactant
- For weekly soil or water buffering, agitate and apply with irrigation water

TECHNICAL SPECIFICATIONS	
<b>Certifications</b>	OMRI
<b>Guaranteed Analysis</b>	Calcium Carbonate 99%
<b>pH</b>	10.0 +/- 15%
<b>Form</b>	Solid
<b>Appearance</b>	White Powder
<b>Weight</b>	-
<b>Available Variants</b>	45 lbs

### SUGGESTED APPLICATION RATES

Label Rates	MIN	MID	MAX
<b>Foliar for Acre +</b>	.5 lb/ac	1 lb/ac	3 lb/ac
<b>Soil for Acre +</b>	1 lb/ac	2 lb/ac	5 lb/ac
